

MARKET TRENDS

The Market Trends in the hollow metal industry are always changing. You our distributor partners are the first to see these changes requested by architects, general contractors and property owners. We at JR Metal Frames want to assist in preparation for marketplace changes and adjust our focus to meet these new product needs head on.

Send us the "NEW " trend you see impacting your local market and we will choose one entry per month to get a free lunch on JR Metal Frames delivered to your office by our National Accounts Manager Chuck Duncan.

Please email us with new trends in your area at: chuckd@jrmetalframes.com.

Monthly winners will be notified and posted on this page of our website. To make it even more exciting and worth some thought, one of the monthly winners will receive a randomly drawn \$100.00 visa gift card drawn on Dec. 15 th. 2013. The winning distributor gets \$500.00 in JR bucks for future frames or doors purchases.

Your communication is very important to us and we wanted to reward your efforts.

Thank You for your business.
